

Bishop Bridgeman Church of England Primary School

Modern Foreign Languages Curriculum Policy

RATIONALE

At Bishop Bridgeman Primary School our curriculum is made up of the planned activities that we as a school deliver in order to promote learning, personal growth and development. It includes not only the formal requirements of the National Curriculum, but also an exciting range of opportunities to enrich the experience. We aim to teach our children to grow into positive, responsible role models who can work and co-operate with others whilst developing the knowledge, skills and understanding within subjects as well as a positive attitude to use throughout their lives.

Learning a foreign language provides an opening to other cultures. It should foster pupils' curiosity and deepen their understanding of the world. The teaching should enable pupils to express their ideas and thoughts in another language and to understand and respond to its speakers, to listen, speak, read and write. Language teaching should provide the foundation for learning further languages, equipping pupils to study and work in other countries. It raises their awareness of the multi-lingual, multi-cultural world and introduces an international element to pupils' learning.
